Take the fight to workplace heat with Cold Front 300. Engineered with larger cooling media, fan diameter, and reservoir size than our base models, it delivers comfort to workers and guests over a wide area. Thanks to its variable-speed control and virtually silent operation, it’s perfect for spaces where rapidly changing conditions require a quick, distraction-free solution.

KEY FEATURES

- Quickly cool indoor and outdoor spaces by up to 33 °F (18 °C)
- Great for workshops, garages, and studios
- Large swivel casters for ease of mobility
- 8-inch (20-centimeter) resin-treated cooling media
- 18-inch (46-centimeter) fan diameter
- 16-gallon (62-liter) reservoir lasts up to 4 hours without hose connection

STOP HEAT COLD

---

1. Not suitable for salt air environments.
2. Maximum amperage is supplied both for the fan and pump maximum amperage rating.
3. Fans are sound tested in a laboratory environment. Actual results in field conditions may vary due to sound reflecting surfaces and environmental conditions.
